Can you identify with Phillip's request to "see" God? Why or why not?

Hebrews 1:1-3 speaks of the progression of God's revelation to man. In the past, God spoke through the prophets. In the New Testament, He has spoken through Jesus. Why is this progression necessary for us to know God sufficiently? How do Jesus' words and life give us a fuller understanding of God's purposes in the world?

Pastor Mark mentioned that the deity of Christ is the critical doctrine of the Christian faith. Why is the deity of Christ so significant? What would be the consequences if that doctrine were not true?

Pastor Mark mentioned that patience is required in discipleship. Has this been your experience in discipling or being disciplined?

Jesus teaches the disciples some of His deepest truths in their greatest moments of trouble. Why do you think this is? What are significant truths you have learned about God amid your troubles?
